Hi Everyone,

I hope you all are ready to do some sampling next week.

We will be meeting at station A68 which is in Silverton at the intersection of E. 14th Street and Animas River at 4:00 pm on Monday September 22nd (see attached map). We will be going over logistics, sampling methods and health and safety. Probably a good idea to bring some waders. Steve Auer will be there earlier if you want to stop by.

I have attached a contact list which includes the number and address to the Mercy Medical Center in Durango as well as maps of our sampling locations.

The Sampling Plan and Health and Safety Plan can be downloaded at:

<https://drive.google.com/folderview?id=0BxEIQFmtIsiDcUQtWTNqSzR0cG8&usp=sharing>

Please let me know if you have trouble downloading.

I will be arriving in Silverton at 9:00 am Monday to assist Jim White and his fish shocking crew. I think many of us, myself included, are staying at the Triangle.

Don't hesitate to call if you have questions.

Should be fun.
